

**AGENCY REQUEST FOR
A/E SELECTION COMMITTEE ACTION
October 2015**

AGENCY: Department of Natural Resources

DNR Contact: Glen Clickner, 608.267.4585/glen.clickner@wisconsin.gov

LOCATION: Point Beach State Forest, Town of Two Rivers, Manitowoc County

PROJECT REQUEST: Select an A/E consulting firm to provide design through construction phase professional services associated with the project to replace the water lines in the Campground at the Point Beach State Forest.

PROJECT NUMBER: 1511N

PROJECT DESCRIPTION:

This project will replace the campground water supply lines, jug fillers and faucets. This project will replace approximately 6,000 feet of buried, galvanized pipe with an approved, underground water supply line. Fifteen jug fillers (camper access to water). Additional work includes site work and restoration and the replacement of water softeners, water heaters and well pressure tanks.

JUSTIFICATION:

The existing water lines are galvanized pipe that date to the 1940's and are in various stages of deterioration. The underground supply lines do not meet health codes and repairs, due to winter freezing, are a spring ritual. The Point Beach State Forest campground averages 62,000 camper days annually and has one of the highest occupancy rates in the Wisconsin State Park System.

PROJECT BUDGET:

Construction	\$
Design	\$
Equipment	\$
DFD Mgt.	\$
Contingency	\$
TOTAL	\$ 275,700

PROJECT SCHEDULE:

A/E Selection	October 2015
A/E Contract	December 2015
A/E Final Deliverables	2016
SBC Approval	TBD
Bid Opening	TBD
Construction Start	TBD
Substantial Completion	TBD
Project Closeout	TBD

A/E QUALIFICATIONS: The A/E design firm for this project shall have experience investigating, designing and constructing potable water systems.
