

**AGENCY REQUEST FOR
A/E SELECTION COMMITTEE ACTION
March 2016**

AGENCY: Department of Natural Resources

DNR Contact: Glen Clickner, 608.267.4585/glen.clickner@wisconsin.gov

LOCATION: Copper Falls State Park, Town of Morse, Ashland County

PROJECT REQUEST: Select an A/E consulting firm to provide pre-design through construction phase professional services associated with the design and construction of the Copper Falls State Park wastewater treatment facility in the Town of Morse, WI.

PROJECT NUMBER: 16B2G

PROJECT DESCRIPTION:

This project includes the construction of a new private on-site wastewater treatment system (POWTS) serving the concession building, toilet building, residence and maintenance garage. This system will handle a design flow of approximately 3,600 gallons per day. The concession building includes food service which will require a grease trap and additional treatment for high strength waste. The existing tanks and drainfield will be replaced by a mound system located to meet current setback requirements.

JUSTIFICATION:

This project is necessary to meet current and future wastewater discharge permit levels for the Copper Falls State Park wastewater treatment facility. The existing system is over 70 years old and not able to meet current standards.

PROJECT BUDGET:

Construction	\$
Design	\$
DFD Mgt.	\$
Contingency	\$
TOTAL	\$ 643,400

PROJECT SCHEDULE:

A/E Selection	March 2016
A/E Contract	May 2016
Design Report and Preliminary Documents	December 2016
SBC Approval	TBD
Bid Opening	TBD
Construction Start	TBD
Substantial Completion	TBD
Project Closeout	TBD

A/E QUALIFICATIONS: The A/E design team selected for this project shall have experience in planning, design, and construction of medium size private on-site wastewater treatment systems (POWTS) for seasonal properties and high-strength wastewater.
